Subject: Job Application

Dear Sir/ Madam,

I am writing this application letter as per your vacancy announcement. Having recently graduated with a BSc Degree in Computer Science from Debre Berhan University with grade of great distinction of 3.87 CGPA, I am excited about the possibility of contributing my skills and knowledge to your dynamic organization.

During my academic journey, I not only excelled in my studies but also gained practical experience as a backend developer and an intern web developer, where I spent the time honing my skills in web development. This hands-on experience allowed me to work on different web stacks, which significantly improved my proficiency in web development and problem-solving.

My academic achievements and work experience have provided me with a solid foundation in computer science and a deep passion for web development and DevOps. I am very much passionate, highly motivated, duty minded, persuasive and polite person to work in your organization. I hope you will look favorably on my application and attached documents.

Thank you for considering my application, I am ready to appear for interview and exam without any restriction. I look forward to the possibility of joining your esteemed team and contributing to your organization's success.

Sincerely,

Brook Tewabe
